STATEMENT

22

23 This bill appropriates \$80,539,578 from constitutionally
24 dedicated corporation business tax (CBT) revenues and various
25 Green Acres funds to the Department of Environmental Protection
26 (DEP) to provide grants or low-interest loans, or both, to assist local
27 government units in the State to acquire or develop lands for
28 recreation and conservation purposes.

29 Of the total amount appropriated, \$76,802,956 is from
30 constitutionally dedicated CBT revenues, and \$3,736,622 is made
31 available due to loan repayments and interest earnings. The funds
32 made available due to loan repayments and interest earnings are
33 from the "Garden State Green Acres Preservation Trust Fund" and
34 various Green Acres funds established pursuant to a Green Acres
35 bond act.

36 The CBT revenues appropriated in this bill are provided from
37 constitutionally dedicated CBT revenues pursuant to Article VIII,
38 Section II, paragraph 6 of the State Constitution, approved by the
39 voters of the State in November 2014.

40 The "Preserve New Jersey Act" implements the constitutional
41 dedication of CBT revenues for open space, farmland, and historic
42 preservation. The "Preserve New Jersey Green Acres Fund" was
43 established by section 6 of the "Preserve New Jersey Act." The act
44 provides that a certain amount of the portion of dedicated CBT
45 revenues allocated each year for the Green Acres program is to be
46 used for: the acquisition of lands for open space, including Blue
47 Acres projects, and development projects on State lands
48 administered by the DEP's Division of Fish and Wildlife and
49 Division of Parks and Forestry; grants and loans to fund local

1 government open space acquisition and development projects; and
2 grants to nonprofit entities to acquire or develop lands for
3 recreation and conservation purposes.

4 This bill appropriates funds to be used for grants and loans to
5 fund local government open space acquisition and development
6 projects. Further, of the funding allocated for local open space
7 acquisition and development projects, a certain percentage may be
8 used to fund stewardship activities undertaken by local
9 governments. “Stewardship activity” is defined in the act as an
10 activity, which is beyond routine operations and maintenance,
11 undertaken to repair or restore lands acquired or developed for
12 recreation and conservation purposes for the purpose of enhancing
13 or protecting those lands for recreation and conservation purposes.

14 The total amount of funding allocated for local government
15 projects listed in this bill is \$80,539,578. Of this amount,
16 \$35,884,518 is for projects to acquire lands for recreation and
17 conservation purposes, and \$44,655,060 is for projects to develop
18 lands for recreation and conservation purposes.

19 Of the sum for projects to acquire lands for recreation and
20 conservation purposes: \$29,349,000 is allocated for planning
21 incentive open space acquisition projects (i.e., projects located in
22 municipalities and counties that have an open space tax and an
23 approved open space plan); \$2,179,000 is allocated for projects in
24 “urban aid” municipalities; \$3,191,518 is allocated for standard
25 open space acquisition projects (i.e., projects located in
26 municipalities that do not have an open space tax); and \$1,165,000
27 is allocated for site-specific incentive acquisition projects (i.e.,
28 projects located in municipalities that have an open space tax, but
29 do not have an open space plan).

30 Of the sum for projects to develop lands for recreation and
31 conservation purposes: \$35,297,330 is allocated for local park
32 development projects in urban aid municipalities or sponsored by
33 densely populated counties; \$5,172,288 is allocated for local park
34 development projects in densely or highly populated municipalities
35 or sponsored by highly populated counties; \$1.8 million is allocated
36 for standard local park development projects (i.e., projects located
37 in municipalities that do not meet the criteria of the prior two
38 categories); and \$2,385,442 is allocated for stewardship activity
39 projects.

40 The projects listed have been approved by the DEP and the
41 Garden State Preservation Trust (GSPT).

42 The projects approved by the bill include projects in “urban aid”
43 and densely or highly populated municipalities and counties. The
44 bill defines a “densely or highly populated municipality” as a
45 municipality with a population density of at least 5,000 persons per
46 square mile or a population of at least 35,000 persons; a “densely
47 populated county” as a county with a population density of at least
48 5,000 persons per square mile; and a “highly populated county” as a

1 county with a population density of at least 1,000 persons per
2 square mile.

3 To the extent that there are funds remaining after the local
4 government unit projects listed in this bill are offered funding, the
5 bill also authorizes the DEP, with the approval of the Joint Budget
6 Oversight Committee (JBOC), to use those funds to provide
7 additional funding for local government unit projects listed in this
8 bill as well as for local government unit projects previously
9 approved for funding pursuant to various other laws.
